

# Pullout testing and axial force measurement

## KCM-NA Center-hole type Compression Load Cell

Civil engineering design

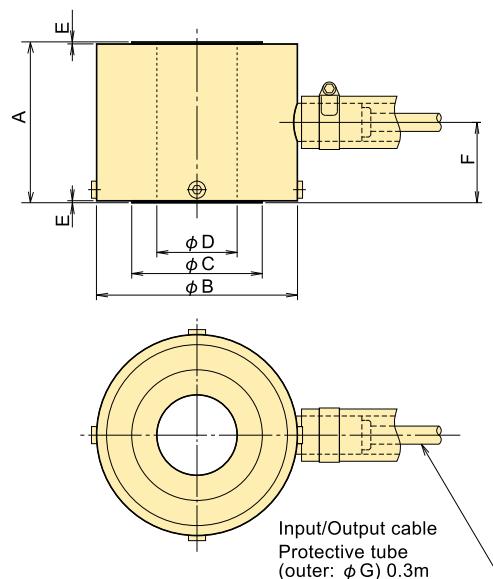

The KCM-NA is a center-hole-type load cell with a strain gauge mounted on a cylindrical strain sensing element. It is used to measure prestress or tension force on ground anchors, pullout testing and measuring axial force on tie rods. The model is especially well suited for measuring on site.

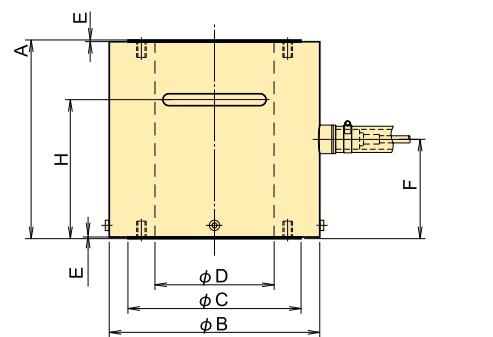

Protection ratings: IP67 equivalent

### Small type Easy handling

KCM-10KNA~ 1MNA

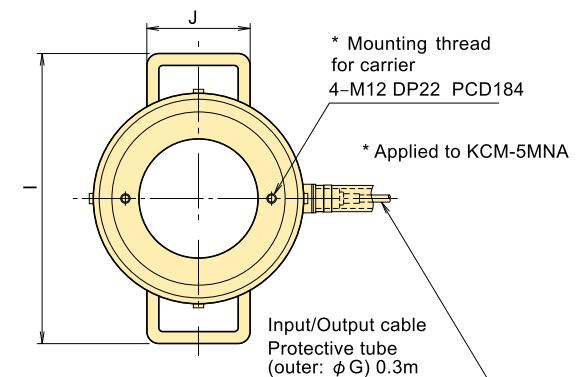

KCM-2MNA~ 5MNA
