

LOAD CELLS

TCLY-NA Tension/Compression Universal Load Cell 300kN~2MN

The TCLY-NA is a Tension/Compression Universal Load Cell with low-profile construction and high-capacity. It offers high precision, high output characteristics and an excellent stability because it uses a shear beam for the strain sensing element. This model is widely used in applications like one-axis loading test machine.

Low profile High capacities

Protection ratings: IP40 equivalent
